Preface	7
0 Introduction	15
MOON DUCHIN	
1 How (not) to spot a gerrymander	17
2 The universe of possibilities	25
3 Theory meets practice	31
4 Adding things up	38
5 Conclusion: What's next?	41
1 Explainer: Compactness, by the numbers	43
MOON DUCHIN	
I Political thought	51
2 Measuring partisan fairness	53
MIRA BERNSTEIN AND OLIVIA WALCH	
1 Proportionality	54
2 Partisan symmetry	63
3 The efficiency gap	71
4 Ensembles and outliers	78
5 Conclusion: Debating fairness	85
3 Interviews: Concepts of representation	91
MOON DUCHIN AND OLIVIA WALCH	
4 Redistricting: Math, systems, or people?	101
KEITH GÄDDIE	
1 Introduction	101
2 A people problem	102
3 A systems problem	105
4 A math problem	108
5 A systems problem, v.2	110

6	A people problem, v.2	111
5	Political geography and representation	115
	JONATHAN RODDEN AND THOMAS WEIGHILL	
1	Introduction	115
2	Urban geography and partisan tilt	119
3	Sampling at different scales	123
4	Seats–votes plots	129
5	East versus West	132
6	Conclusion	138
II	Law	143
6	Explainer: A brief introduction to the VRA	145
	ARUSHA GORDON AND DOUG SPENCER	
7	Race and redistricting	151
	ELLEN D. KATZ	
1	Introduction	151
2	Into the thicket: The constitutional framework	154
3	Elaboration: The statutory framework	159
4	Uneasiness: Recasting frameworks in the 1990s	163
5	Hostility: Race, redistricting, and the Roberts Court	168
6	Conclusion: Future of the VRA	174
8	Law, computing and redistricting in the 1960s	177
	ALMA STEINGART	
1	Against computers	177
2	The apportionment revolution meets the computer revolution	179
3	The widening gap between equality and fairness	188
9	The law of gerrymandering	193
	GUY-URIEL CHARLES AND DOUGLAS M. SPENCER	
1	Backdrop	193
2	Partisan vs. racial gerrymandering	201
3	Constitutional provisions regulating partisanship	203
4	Alternative approaches	210
5	A call to action	211
III	Geography	213
10	Race, space, and the geography of representation	215
	CHRISTOPHER S. FOWLER	
1	Introduction	215

2	Population distribution: cause and effect	216
3	Geography on multiple scales	225
4	Concluding thoughts: Pay attention to race	230
11	The elusive geography of communities	235
	GARRETT DASH NELSON	
1	Community as a principle of representation	235
2	Are communities places or not?	236
3	The functional logic of regional definition	238
4	Geographic coherence	242
12	Explainer: Communities of interest	249
	HEATHER ROSENFELD AND MOON DUCHIN	
13	Geography as data	261
	LEE HACHADOORIAN AND RUTH BUCK	
1	Introduction	261
2	The Census and its products	262
3	Election data and the precinct problem	271
4	GIS: Shapes and attributes together	273
5	Some specific challenges	280
6	Conclusion: Technology cuts both ways	283
IV	Math and computer science	287
14	Three applications of entropy	289
	LARRY GUTH, ARI NIEH, AND THOMAS WEIGHILL	
1	Introduction	289
2	Application: Measuring segregation	291
3	Application: Splitting counties	294
4	Application: Distance between plans	299
5	Conclusion: Math for democracy	303
15	Explainer: Measuring clustering and segregation	307
	MOON DUCHIN AND JAMES M. MURPHY	
16	Redistricting algorithms	317
	AMARIAH BECKER AND JUSTIN SOLOMON	
1	Introduction	317
2	Generating all plans: Enumeration	321
3	Generating many plans: Sampling	324
4	Seeking “best” plans: Optimization	334
5	Conclusion: The future of redistricting algorithms	348
17	Random Walks	355

DARYL DEFORD AND MOON DUCHIN

1	Overview: Not a solved problem	355
2	Introduction to MCMC	358
3	MCMC for redistricting	373
4	Exploring with ensembles	390
5	Conclusion: Still not a solved problem	392

V On the ground 397**18 Making maps 399****MEGAN GALL, KARIN MAC DONALD AND FRED MCBRIDE**

1	Introduction	399
2	The raw materials of a map: Tools and data	401
3	Drawing the maps	406
4	Transparency and secrecy	415
5	Recommendations	418
6	Conclusion: Democracy takes work!	420

19 Interview: Drawing for the courts 423**MOON DUCHIN AND OLIVIA WALCH****20 Explainer: Ranked choice voting 429****THOMAS WEIGHILL AND MOON DUCHIN****21 Reform on the ground in Lowell, MA 437****IVAN ESPINOZA-MADRIGAL AND OREN SELLSTROM**

1	Introduction: The VRA as a tool	437
2	At-large electoral systems: A prime target	439
3	Lowell, Massachusetts: A case study	440
4	Conclusion: A settlement in Lowell, and next steps	448

22 Explainer: Racial polarization 451**ARUSHA GORDON AND MOON DUCHIN****23 The state of play in voting rights 455****KRISTEN CLARKE AND ARUSHA GORDON**

1	How we got here	455
2	Where we're going	461
3	Conclusion: Why it matters	468
